

PROCEDURE FOR ASSESSMENT OF OBJECTIONS AND COMPLAINTS

Document : FTI.PR.22

Revision : D

Date : 10 / 2019

Page : 1/3

1. OBJECTIVE :

The purpose of this procedure is to establish a process for receiving, evaluating and resolving to complaints and objections, and to determine the tasks, responsibilities and methods for these activities.

2. SCOPE :

This procedure includes objections and complaints to all FTI activities.

3. RESPONSIBILITIES

3.1. General Manager

- Carries out the objection / complaint assessment process in case of objections / complaints about the Quality Manager.
- Allocates the necessary resources for all activities.

3.2. Quality Manager

- Ensures that processes for objections and complaints are addressed.
- Address, evaluate, record nonconformities and initiate, monitor and finalize necessary corrective and preventive actions. Informs the related parties according to the results of the evaluation.

4. DEFINITIONS

4.1. Objection

This is the application made by persons/institutions/organizations regarding decisions taken by FTI about the subjects that concern them.

4.2. Complaint

This is the application by persons/institutions/organizations regarding dissatisfaction about services or any step of conformity assessment process which submitted by FTI.

5. IMPLEMENTATION

5.1 Acceptance of Applications for Objections or Complaints

Appeals and complaints are accepted when by the person / institution / organization send in writing through the communication channels defined below:

- Sending information by entering relevant information through the communication section of our web address www.fti-europe.com.
- A message to be sent to info@fti-europe.com mail address including the subject, purpose of application, name, company, phone and email information.

Page : 2/3

- ***A letter of application to be sent to our address including the subject, purpose of application, name, company, phone and email information.***

Applications without name / company and contact information, petitioned applications that do not contain a signature or applications that are determined to use false and / or fake names and signatures are not processed.

Receipt of application is submitted by e-mail to the related person/institution/organization within 7 workdays for proper applications which are submitted through appropriate communication channels with the proper information.

Complaints and objections are transmitted to the Quality Manager for assessment.

5.2 Assessment of Objections or Complaints

The Quality Manager discusses the issue with the responsible personnel who is subject of the objection / complaint and / or assess the process subject of the objection / complaint. After this stage, two different actions are taken:

- 1- If the objection / complaint is found to be not caused by FTI, the applicant is notified by e-mail with concrete data.
- 2- In case it is determined that the objection / complaint is caused by FTI, the situation is considered as nonconformity and the process is initiated with F.08.01 Nonconformity Notification Form

If it is determined that the subject of the objection / complaint is not caused by FTI, the applicant shall be notified by e-mail with concrete data.

In the event that the subject of the objection / complaint is caused by FTI, it is considered as a nonconformity and recorded with F.08.01 Nonconformity Notification Form and the procedure is performed according to FTI.PR.08 Nonconformity Control Procedure. The activities carried out in order to eliminate the identified nonconformity and the resolution of the situation subject to the objection / complaint and their results shall be notified to the objector / complainant via e-mail.

When the objection / complaint subject is related to the Quality Manager, the objection / complaint is transmitted to the General Manager and the assessment process is managed by the General Manager.

6. RECORDS

The retention periods of the records of this procedure are defined in the FTI.PR.04 System Records Procedure and published in the Document Tracking Report.
